TRACKSTAR 125

- '4 star MCN review'
- 'Voted Number 1 by Which Bike'

Our flat track inspired retro bike, developed in the UK with a very low seat just 755mm, ultra low weight 105kg and over 100 mpg! The bike has all components blacked out and comes in two very retro colours with a stitched tan saddle. Trackstar has very wide bars and very little plastic being built just like a machine from the 1970's with an exposed rear end. There isn't a cooler 125 out there.

MCN "its extraordinarily light and manageable, making it good for the commuter, rookie and petite alike... the Trackstar is superb value"

• ALSO COMES IN BEIGE AND DARK GREEN

WEIGHT
107kg

SEAT HEIGHT
760mm

FUEL CAPACITY
10Lts

BRAKE HORSE POWER
11.7bhp

A1 LICENCE

NOT REQUIRED FOR
3yrs
